

The Edge Series
Fixed Frame Screen

The Edge Series

Fixed Frame Screen

● Ultra-narrow frame
The new Edge Series has a frame just 29mm wide, looks like a giant LED TV. With this limited width the image is controlled within screen range in case tiny deflection happens during image adjustment.

● "Attached" to the wall
The distance between screen and wall is just 6.5mm, almost like attached to the wall, which is 67% less than average wall distance of LED TV.

● Premium Velvet touch
The surface frame is made of high quality aluminum wrapped with velvet, turn the screen into an Elegant decoration on on wall.

● Stable Structure
With the enhanced 44x28mm aluminum frame structure, the screen can be up to 120"(16:9) and durable for a "life-time" projection.

● Small package design
Thanks to the devided frame, the package is dramatically smaller than regular frame screen, even for 120"(16:9), the package is just 1.66 meters, which is 43% less than Prestige series and the overall package size is 77% less.

● Flat as a mirror
Taking advantage of the mature fabric tension system from Prestige series, the screen is durably flat as mirror after installation.

● Convenient Installation
With the range belt mounted on the installation bracket, you don't need to measure the distance, just fixed the bracket to the wall according to the range belt, hang the screen on and turn the circular lock, it can be done easily by just one person.

Specifications

Model: LF-PExxx

Format	Diagonal (inch)	Viewing Size (WxH)	Product Size (L x A x Depth)	Installation Range (Hgb)	Bracket length (Lgb)	Net Weight (kg)
